Sistrade® NEW FEATURES Release 8.0

Sistrade® Human Resources

Remuneration simulator was implemented, so that it allows the user to perform simulations of processing of salaries, either to calculate the Base Salary from the Net Salary (inverted processing) or to calculate the Net Salary from the Base Salary (normal processing).

Sistrade® Orders

Production date changed in scheduling with reflection in Order Various optimisations have been made in order to speed up and allow communication between Commercial and Production/Scheduling processes, it had the logic of only validating the scheduled delivery dates, now it updates the order with the information of agreed and scheduled production completion.

Sistrade® Production data collection

New feature for registration by Serial Number
In scenarios, where production process is based on the number of series per unit produced, the data collection interface has been changed and now it allows the user to enter serial number of each component, in each article that composes the job order.

2nd ANNUAL PRINT MATTERS FOR THE FUTURE CONFERENCE TAKES PLACE IN PORTUGAL

With 50 participants from 23 different countries enjoying a varied programme, the conference was a success and an important 2nd edition of an event which is fast becoming a highlight of the year for national printing associations worldwide. António de Sousa Ribeiro from SISTRADE delivered a presentation on the practical applications of their MIS|ERP solutions for printing & packaging industry.
