## Sistrade® NEW FEATURES Release 8.1

### Sistrade® Administrative and Financial Module

In Human Resources, similarly to what is already done in other system processes, it is now possible in the Employee Register to include "Additional Information", and allow the user to include the additional data in the employee data sheet.

### Sistrade® Commercial Management

In the invoicing, there was added a new filter "Currency zones" which shows different currency zones set in the system and with active status. This way, it is possible to filter customers by currency zone in order to invoice separately by zone.

### Sistrade® Quality Control

Quality Control for Mobile warehouses using Tablets. It is now possible to use Tablets in the quality control feature, just as in production data collection.

### Sistrade® Shipment

Pallet height in the Pallet List registration Optimisation allows the registration of pallet height, after finishing the palletizing process of articles for later delivery and presentation of this information in the shipping process.

## PRINTING HOUSE ERBI IMPLEMENTS SISTRADE MIS | ERP

Printing house ERBI from Lodz implements integrated management system for packaging printing MIS|ERP Sistrade. ERBI is one of the leading packaging printers on the Polish market. The company specializes in the manufacture of cartons for the pharmaceutical industry. More than twenty years of experience and the recent investment in the latest technology strengthen ERBI position as a manufacturer of pharmaceutical packaging.
