Sistrade® FEATURES Release 8.1

Sistrade® Shipment

Pallet consumption at the closing of Picking List it is now possible to make consumption of pallets.

Product "Commercial Set/Kit" in shipment process

There is now a product type "Commercial Kit", so that in the commercial process the system allows operating the registration and the procedural flow of products which are no more than sets/assemblies for several other products, and the process of ordering and invoicing will always be associated to the product of the 1st level - "Main" product - and the shipment process should influence "Deriving" products - of the 2nd level, as set in the product tree.

Sistrade® Basic Estimating

Optimisation of Box Estimates

It now allows rotating box model (90 degrees to the left) and from this, setting the layout and optimisations.

New Customer Edelmann

Edelmann India order Sistrade MIS|ERP system. Edelmann Packaging India belongs to the Edelmann Group. High finished folding cartons for the Beauty Care, Health Care and Consumer Brands markets are produced on the Indian site.

REDUCE COST AND IMPROVES TRACEABILITY WITH WAREHOUSE MANAGEMENT SOLUTION

To reduce costs of the warehouse we offer Mobile Warehouse solution that optimizes company's reception and shipping, streamlines logistics and reduces the processing time spent on operations related to the warehouse. This feature allows the management of warehouses and their locations with the support of a simple Wi-Fi terminal, where all the management movement of the warehouse is done with the use of barcodes. Mobile Warehouse is a solution developed by SISTRADE Web-oriented technology with real-time connection to the central information system of the company.
