Sistrade® FEATURES Release 8.1

Sistrade® Administrative and Financial Module

In the software Sistrade® v.8.1, it is now possible in Treasury module to consult base currency, using a new column of debit value and credit value, either on the screen or on the layout. More easy, more intuitive!

Sistrade® Commercial Management

In the book industry, it is very common for customer to request an estimate for a certain amount and ask the price for each additional 1000 units, it is difficult to know in advance how many copies will be produced (problem of editions and reprints). In fact, the calculation for extra 1000 is relatively simple, requiring only to simulate two quantities at intervals of 1000 and to check the price difference between the two. For this, there has been entered automatically a tool that enables to get the price for each 1000 products automatically (whether or not books).

New Customer in Portugal

Liderbox Artes Gráficas is a producer of cardboard and micro-corrugated board packaging. The company has acquired MIS|ERP Sistrade®.

PROJECT MANAGEMENT SOFTWARE CAN HELP YOU GROW YOUR BUSINESS

Sistrade® Project Management is a web-based module developed by SISTRADÉ that allows the company to expand to other business partners. This module ensures the management of different areas of a company, from ordering, article design, monitoring project invoicing, dispatch and activities planning.

Sistrade® Project Management is able to handle the increasing number of projects of a company, ensuring more rapid and efficient management, at the same time decreasing the workload of human resources responsible for managing all the information inherent in a project.

Using Sistrade® Project Management, the company can monitor all processes of the various ongoing projects, obtaining correct and efficient management, avoiding slippage and ensuring the success of the project as planned. Sistrade® Project Management is an application that allows storing, process and organizing of information generated in the company. **For more information visit our website:** <http://www.sistrade.com/en/Solutions/mis-erp-sistrade-project-management.htm>
